Summary

Curious how strategic and informational frictions shape dynamic decision making in DSGE models - that extends into mechanism design and behavioural economics. Keen to explore AI/ML methods into econometric analysis.

Education

M.Sc. Economics Indian Institute of Technology, Kanpur CGPA: 8.2 (Sem 2)	2025–2027
B.A. Economics Jadavpur University, Kolkata First Class CGPA (Major): 9.22 CGPA (Minor): 9.20	2022–2025
CBSE Class 12 Ashok Hall Girls' Higher Secondary School, Kolkata Physics, Chemistry, Mathematics, Economics, English, Bengali Score: 95%	2022
CBSE Class 10 Ashok Hall Girls' Higher Secondary School, Kolkata Score: 96.8% CBSE Merit Certificate: Top 0.1% in English Participated in debate, quiz and chess tournaments	2020

Internship

Summer Research Internship Program (SRIP-2026) | Goa Institute of Management May-June 2026
Supervisor: Prof. Sebastian Morris | Area: General Management & Public Policy

Scholastic Achievements

- All India Rank 43, Score 67.67/100 — JAM Economics 2025
- All India Rank 92, Score 69/100 — GATE Economics 2025
- All India Rank 6, Score 71/100 — IIT Kanpur Economics Entrance Test

Projects

Undergraduate Dissertation | Guide: Dr. Jhilam Ray, Jadavpur University
Differences in learning outcomes in public and private schools of West Bengal — Primary survey of 300+ students (standardised English & Math tests, socioeconomic questionnaires). Statistical analysis (bar graphs, pie charts, box plots, chi-square, t-tests, correlation, regression) using Stata, Excel & Python. Evidence-based policy suggestions.

Macroeconomics Project | Guide: Dr. Rilina Basu, Jadavpur University
India's GDP growth in the post-reform period (1990 onwards) — Sectoral trend analysis using secondary RBI data.

Applied Econometrics and ML Mini-Project

Replicated a research paper titled “An ARIMA-LSTM model for predicting volatile agricultural price series with random forest technique” using various libraries in Python. Added an extension of ARIMA, ARIMA-GARCH and LSTM and ARIMA-LSTM (ACF and RF) methods in predicting prices of pulses.

Relevant Coursework

Post-Graduation (IIT Kanpur):

Microeconomics · Applied Macroeconomics · Mathematical Methods in Econ. · Applied Probability & Statistics · Econometrics-I · Advanced Topics in Microeconomics · Game Theory Applications · Computational Methods in Econ. · Economics Data Analysis · Development Economics

Under-Graduation (Jadavpur University):

Introduction to Intermediate & Advanced Micro. · Introduction to Intermediate & Adv. Macro. · Econometrics · Bayesian Game Theory · Beginner & Advanced Statistics · Mathematical Methods for Economics · Health and Education · Public Economics · International Trade · Indian Economy · Development Economics · Introduction to Comics, Literature & Culture

Skills

Technical: Python (basic), SQL (basic), R (basic), Stata, MS Excel, LaTeX

Positions of Responsibility

- Event Head of Essay Writing Competition PA-WRITO, an Annual Economics Fest Young Economists Students Meet, Jadavpur University — managed collection and evaluation of 100+ essays from across India.
